

GSEA | Supporting Renewable Energy in Georgia |

Georgia Solar Energy Association

GSEA is the Georgia chapter of the American Solar Energy Society (ASES – see www.ases.org).

We are a non-profit organization working to promote renewable energy in the state of Georgia through education, research and advocacy. We promote all renewable energy production including (but not limited to):-

- Solar Thermal
- Photovoltaic Energy
- Bio Diesel
- Micro-Hydro Electric
- Wind Energy

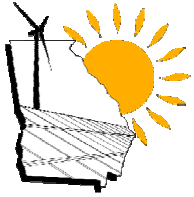

Members include:

- Concerned Citizens and Consumers
- Researchers and Educators
- Architects and Builders
- Engineers and Scientists
- Utility Representatives
- Owners of renewable energy businesses

Activities include:

- The monitoring and input into the Energy strategy and planning for Georgia.
- The organization and participation in the ASES National Solar Tour. This is the largest demonstration of solar energy equipped homes and businesses in the US and takes place in early October. A variety of premises are open to the public and interested persons can visit the sites to see what is really involved in the adoption of renewable and solar energy systems in the South East United States. Visiting a tour allows people to learn energy efficiency strategies and methods, speak with homeowners and experts, and learn how the technology works, what it costs, and why it makes sense, with a particular emphasis on Georgia.

GSEA | Supporting Renewable Energy in Georgia |

- Input into ASES with views and ideas concerning renewable and solar energy strategies from a Georgia perspective.
- The maintenance of a directory of solar and renewable energy suppliers in Georgia.
- The maintenance of key information concerning renewable energy adoption in Georgia.

As interest in solar and renewable energy grows we welcome the addition and involvement of new members.

GSEA is run by a board elected by the membership. The board meets in the evening of the third Thursday of every month in central Atlanta. Every second month an open meeting is held and immediately after that a social event is held in one of the bars/restaurants in the area. This is a very good way of meeting people with similar interests in the Atlanta area.

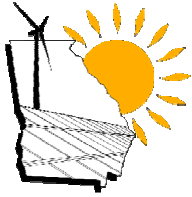

Individual membership of GSEA costs \$25 per year. Discounts are available for Family memberships. Corporate memberships are also available.

Benefits of membership are:

- A chance to influence the energy policy and strategy of Georgia.
- Access to state specific information on solar and renewable energy in Georgia.
- Associate membership of ASES.
- Social activities with like minded people.
- Access to a regular newsletter.

To learn more about applying for membership visit www.gasolar.org, email membership@gasolar.org, or complete and return the membership form on the next page.

GSEA Membership Application

STEP 1: Complete the following:

Personal Information – Primary Member

Full Name: _____
Last *First* *M.I.*

Address: _____
Street Address *Apartment/Unit #*

_____ *City* *State* *ZIP Code*

Home Phone: () _____ Alternate Phone: () _____

E-mail Address: _____

Are you currently a member of the American Solar Energy Society (ASES) (Y/N)? _____

GSEA Membership Category: (Please check one or mark with **X**)

Individual (\$25/year) _____ Family (\$45/year) _____ Student/Senior (\$15/year) _____

Corporate (\$100/year) _____ (Two representatives per company, per membership)

ASES Membership Category: (If you would like to join ASES at this time, please check one or mark with **X**. Note – this is not required to become a member of GSEA.)

Basic (\$39/year) _____ Professional (\$89/year) _____ Lifetime (\$1200) _____

Please provide additional family or company information below if needed.

Personal Information - Additional Member

Full Name: _____
Last *First* *M.I.*

Address: _____
Street Address *Apartment/Unit #*

_____ *City* *State* *ZIP Code*

Home Phone: () _____ Alternate Phone: () _____

E-mail Address: _____

STEP 2: Make a check payable to Georgia Solar Energy Association.

STEP 3: Send to:
