

Solar for All - Capital Campaign ***Help us Power the Solar Community in Georgia!***

Dear Supporter of Solar

For almost two decades, the Georgia Solar Energy Association has been working with regulators and stakeholders to make clean, cost-effective solar energy available to the people of Georgia. The state's solar assets have grown exponentially in that time and the establishment of a solar market has contributed billions of dollars to the state's economy, but there's still a lot of untapped potential.

Polling and studies have shown widespread support for increasing access to solar energy in all parts of Georgia and by people of widely diverse political beliefs. Whether you are liberal or conservative, solar energy simply makes good, practical sense as a resource option. It is clean, cost-competitive with other energy resources, and provides a wide range of economic benefits for the state and its people.

Solar energy also creates good jobs – nearly 4,000 currently. It gives homeowners and businesses better control of their energy costs. So far, it has produced billions of dollars in local investment, generating ongoing tax benefits that improve communities statewide. And it helps preserve our environment for future generations.

We need your support now, more than ever before!

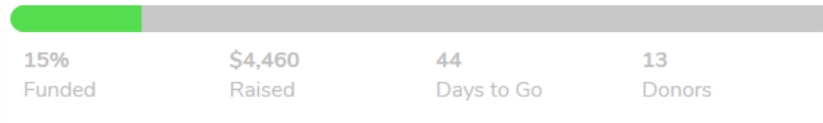

By contributing to the Solar for All campaign, you help to ensure that elected officials will get the message that the residents of Georgia want more opportunity to use solar energy to power their homes, operate their businesses, and serve their communities.. At GA Solar, we believe that everyone deserves access to the financial and environmental benefits that come with renewable energy. We need your support to make affordable clean energy accessible and inclusive in every corner of the state.

Our campaign depends on donations from people and businesses like you! We invite you to

[join GA Solar and donate](http://www.gasolar.org) to our “Solar For All” campaign by going online to give at www.gasolar.org.

Our efforts in this process are for the benefit of the solar energy consumers and industry in the southeast, and all donations are tax deductible. ***We have a long way to go, every bit of support counts now more than ever!***

\$30,000

[Learn More and Donate Today](#)

We are proud to represent you and look forward to working together to grow the solar industry in the state of Georgia. Please spread the word about “Solar For All” and help us grow our voice! To sign-up for the “Solar For All” volunteer team, email your request to admin@gasolar.org.

Thank you for being a supporter of Georgia Solar,

Lauren Hart, *Executive Director*
